PENDANT LAMP

rinocca.com

About the product

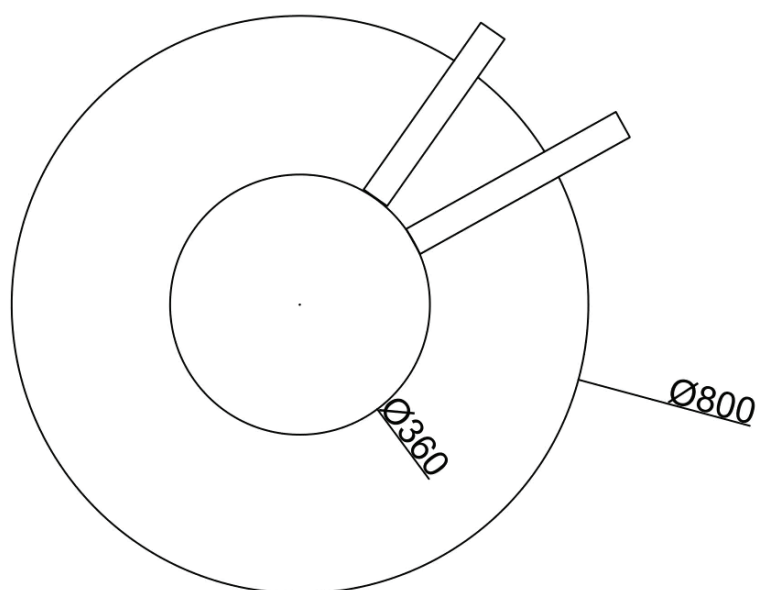

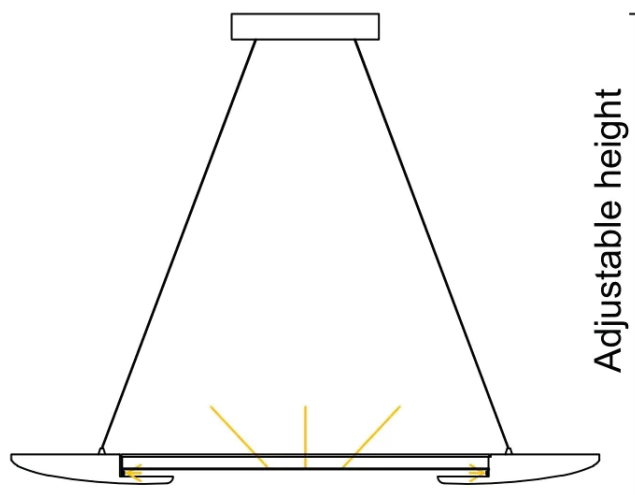

This magnificent pendant lamp was inspired by the shape of a human eye. The name "Oko" means "Eye" in Macedonian language.

It has two types of lighting installed, one main light on the top that shines upwards in the ceiling, and one ambient light that is hidden in the bottom part of the pendant lamp.

With the clever indirect lighting it gives a soft atmosphere lighting and makes you feel relaxed. it's just breathtaking.
